

4.1.3: Building a Positive Digital Footprint

Spend some time reflecting on you and your friends' social media activity.

1. Give an example of a social media post that builds a positive digital footprint. How does the post build a positive digital footprint?
 2. Give an example of a social media post that builds a negative digital footprint. How does the post build a negative digital footprint?
 3. Thinking about your digital footprint, are you going to make any changes in what you post on social media? How about what you write to share in a group message? Why or why not?
