

Lesson None: Cyberbullying

https://codehs.com/lms/assignment/206644959/lesson_plan

Description	In this lesson, students will learn about and discuss cyberbullying. Cyberbullying is the use of electronic communication to harass or target someone. Cyberbullying includes sending, posting, or sharing negative, harmful, false, or mean content about someone else.
Objective	Students will be able to: • Understand the impact of cyberbullying, and identify unacceptable bullying behavior • Identify proper actions to take if they are victims of cyberbullying or if they observe someone being cyberbullied
Activities	4.2.1 Video: Cyberbullying 4.2.2 Quiz: Cyberbullying 4.2.3 Free Response: Scenario: Student Ranking 4.2.4 Free Response: Scenario: Singled Out 4.2.5 Free Response: Stopping Cyberbullying
Prior Knowledge	No prior knowledge needed.
Planning Notes	• Review the slides and activities for the lesson before the start of class. • There is a handout that accompanies this lesson. It can be used as an in-class activity or a homework assignment. Determine how and if this handout will be used and make the appropriate number of printouts prior to the class period. • Please review supplementary materials before sharing with students—as this is a sensitive topic, certain supplementary materials may not be appropriate for your students. • Before class discussion, set some norms for being respectful to all students and creating a space where students feel safe sharing their experiences. Moderate class discussions to ensure that all students are respectful, and if needed, followup with students after class. • (Optional): Read Tips for Teachers: https://www.stopbullying.gov/cyberbullying/tips-for-teachers/index.html • (Optional): Watch Cyberbullying Misdirections: https://www.youtube.com/watch?v=mJ4v7R3MbrU

Standards Addressed

CSTA MS Standards

Name	Description
MS-SOC-HU-43	Analyze how the decisions humans make when using computing technologies have ethical and social consequences.

CYBER ORG 6-8 Standards

Name	Description
6-8.DC.CYBL	Develop strategies to raise awareness of the effects of, and methods to identify and prevent, cyberbullying. Clarification statement: At this level, student discussions should focus on previous standards as well as grade-appropriate examples of how to recognize cyberbullying, what actions that students can take if they are being bullied, and how to speak up to support someone who may be a victim of cyberbullying.

NS 6 ICT Standards

Name	Description
6.DC.a.3	recognize and discuss how inappropriate technology use affects themselves and others

Teaching and Learning Strategies

Lesson Opener:

- Have students brainstorm and write down answers to the discussion questions listed below. Students can work individually or in groups/pairs. Have them share their responses. [5 mins]

Activities:

- Watch the lesson video and complete the corresponding quiz. [5-7 mins]
- Complete the three cyberbullying free response activities. [15 mins]
- Complete the *Do the Right Thing* handout. Students can work individually or in small groups/pairs. [20 mins]

	Lesson Closer: • Have students reflect and discuss their responses to the end of class discussion questions. [5 mins]
Discussion Questions	Beginning of Class: • Have you ever witnessed cyberbullying? What happened? ◦ <i>Answers will vary.</i> • How is cyberbullying the same as in-person bullying? ◦ <i>Cyberbullying is similar because there is a bully and a victim.</i> • How is cyberbullying different than as in-person bullying? ◦ <i>It is different because it can be anonymous, constant (hard to avoid or stay away from) and it can be permanent or hard to delete or 'undo'.</i> End of Class: • What advice would you give to a friend who is being cyberbullied? ◦ <i>Block the user and report him/her if possible. Also, to not engage with the bully and let a parent or administrator know.</i> • What advice would you give to a friend who observes cyberbullying? ◦ <i>Be an upstander! Reach out to the victim and offer support. Help them report the cyberbully.</i> • What would you tell a friend who is cyberbullying? ◦ <i>Cyberbullying is extremely mean, adds to a terrible digital footprint and can have longlasting affects on both the bully and the victim.</i>
