

2.4.4: Label Your Computer

In-class activity:

1. Use a sticky note to label each easily accessible hardware part of your computer.
2. Compare your sticky notes with your neighbor's. Do your labels match?
3. Once you have completed the activity, write 2-3 sentences describing anything you found surprising, interesting, or confusing.

Virtual activity:

1. Use a sticky note to label each easily accessible hardware part of your computer and then take a picture.
OR
Take the picture of your setup and then use the markup feature (or another editing program) to label the picture.
 2. [Upload your photo](#) by clicking on the More tab and selecting upload. Upload your image and copy the URL. Paste the URL in the editor.
