

4.5.5: Collage on a Theme

Add four images to this web page using the `<img>` tag. They should all be related to each other on some theme. The height should be 150px and width should be 100px.

Arrange the four pictures into two rows of two pictures.
Separate the rows using a `<br>` tag.

Make sure to put everything in the `<body>` section of the web page.

For example, shown here is a collage of kittens:

BONUS CHALLENGE:

Create a 2x3 grid of pictures, or a 3x3 grid of pictures.

Solution Code

```
1 | <!DOCTYPE html>
2 | <html>
3 |     <head>
4 |         <title>CodeHS</title>
```

```
5     </head>
6
7     <body>
8         
9         
10        <br>
11        
12        
13    </body>
14 </html>
```

Starter Code

```
1 <!DOCTYPE html>
2 <html>
3     <head>
4         <title>CodeHS</title>
5     </head>
6
7     <body>
8         Replace this with a 2x2 grid of images that all have a width of 100px and
9         a height of 150 px.
10        You should have two pictures in each row.
11        Use a "br" tag to separate the pictures into rows.
12        They should be related in some way.
13    </body>
14 </html>
```
